

specimen traps

40cc Sterile Mucus Specimen Trap for Pneumatic Tube Transport

- Eliminate the possibility of accidental tube separation specimen transport with this sterile mucus specimen trap
- Packaged with an extra cap designed to seal the trap for transport
- After collection, simply remove the standard tubed cap and replace it with the transport cap
- Each packed sterile, in easy-to-peel envelope that assures aseptic handling
- Write-on bottle

Catalogue No. BSE405

Packed 24/carton
